Red wine 2021

Our youngest wine is a fresh burst of red fruits and Mediterranean forest aromas. It is vibrant and open on the palate —the perfect partner for meals and laid-back moments.

WINEMAKING

The wine is fermented in stainless steel tanks of 5.000 liters. The different varieties in the coupage are vinified separately to get the maximum expressive potential of each grape. Ageing takes place over 12 months in 225 and 500 French oak barrels or in 2.000 and 3.000-litre Fuders. A portion of the vine ages in cement tubs.

TASTING NOTES

Intense red with purple tones. It has a very fresh aroma, full of flowers and fruits sensations that are confirmed in the palate. It is cheerful and lively, and expresses citrus flavours and memories of summer bone fruits, such as peach and apricot. In the end it appears so vibrant and enjoyable that makes us want to drink more.

FOOD HARMONIES

Attractive and versatile, it is perfect for any time, alone or with any meal. It goes very well with cured and smoked meats, and cheeses. Also with tomato-sauced pasta dishes and with grilled meats: sausage, blood sausage, lamb, burger... Take it with your favorite pizza: it's a real discovery. And it is a simple and extraordinary pleasure with just a slice of toast with a splash of extra virgin olive oil is a simple, extraordinary dish.
